

CleanAIR® Flow Master PAPR with Belt & Flow Indicator

CleanAIR®

Features & Benefits

- Low weight
- Economical operation
- High levels of airflow
- Warning low pressure system (Pressure Flow Master)
- Option of filtration of supplied air with CleanAIR® Conditioner
- Compatible with a wide range of CleanAIR® Head Top combinations
- The regulator on the belt unit can adjust the amount of air coming from the air distribution system or compressor
- Air pressure is kept at a constant level despite any changes to inlet pressure
- It has a whistle to warn the user if inlet pressure drops below the bottom limit of operation pressure
- Comes with a soft padded belt for wearer comfort

Applications

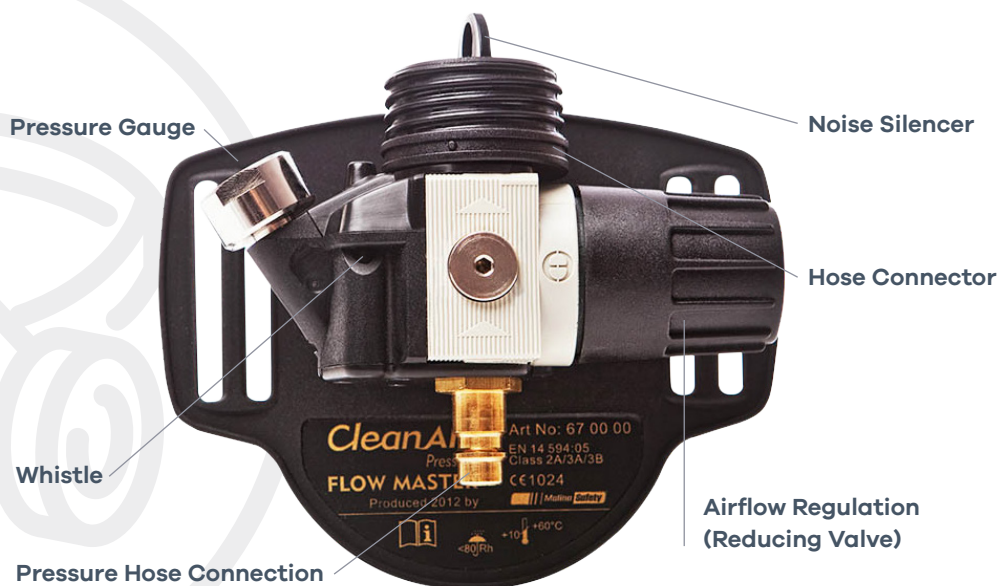

- Automotive industry
- Welding, grinding, surface finishing operations
- Heavy industrial environments
- Laboratories
- Chemical Industry

Product Details

Product Code:	R670000
Airflow:	160-250lpm
Inlet pressure:	400-1000kPa
Weight:	280g
Inlet connection:	Compatible with RECTUS 25, 26 and CEJN 320
Noise Levels:	< 61dB

Certification

Certified to AS/NZS 1716:2012 for Respiratory protective devices
EN 14594, Class 3B

Available to use with:

Pressure Conditioner

R610050

The Pressure Conditioner is a portable high-capacity filter unit that can be used to provide a safe air supply to the Flow Master belt-mounted unit. It can also be wall mounted and is able to supply filtered air for two workers at the one time.

10m Spiral Hose

R610046

A mechanically resistant spiral hose can be purchased separately to work with the Pressure Conditioner. It has a hose spiral 6,5x10mm and is 10 metres long and connects the Pressure Conditioner to the Pressure Flow Master which is mounted on the users belt.

Light Flexi Hose

R710060

The light flexi hose connects the Flow Master belt-unit to a wide range of head tops. This allows the wearer to use the same air supply system for multiple applications without needing to change the belt-unit as the QuickLOCK hose connection is the same for all CleanAIR head tops and welding helmets.

Available Head Top Combinations

Grinding Hood
RCA-3P

UniMask
RFU837

Short Hood
RSH835

Long Hood
RLH839
